

Dayton Pain Center Pledge

Dear Referring Physician,

It is my privilege to receive your referrals. My staff and I promise to implement the most advanced pain treatment programs to improve the functionality and overall quality of life for your patients.

Goals for Success

Dayton Pain Center will design a treatment plan unique for the individual patient. The customized treatment plan is necessary to achieve maximum pain relieving results and better outcomes overall. With interventional procedures, Our goal is to minimize the need for narcotics. A narcotics contract and routine and random toxicology tests, however, are utilized to ensure proper use of prescribed medications.

Compliance is the Key

We encourage active patient education and communication with the primary care physician for continued success. Dayton Pain Center has many resources to counsel patients in attempts to keep the patient in the program and manage their pain successfully.

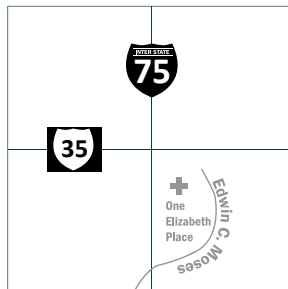

Respectfully yours,

Krishna B. Reddy, M.D.
